

# Filip Wachowiak

I like challenges and solving impossible problems. Working in close collaboration with my team and owning the product is important to me

## WORK EXPERIENCE

### Chili Piper Inc.

APRIL 2023 - PRESENT — *Staff Frontend Engineer*

I helped deliver the beta of a chat product, took ownership of auth migration for Chili Piper apps, as well as continued maintaining the design system. To optimize our work I implemented automation of icons generation from Figma

APRIL 2022 - APRIL 2023 — *Senior Frontend Engineer*

I led a frontend team of 3 people. We developed a new chat product from scratch. I was responsible for the design system rewrite in close collaboration with designers. Focusing on consistency and the best DX without sacrificing UX

MAY 2021 - APRIL 2022 — *Frontend Engineer*

I worked on various products. Greatly improved tooling and DX for the frontend team. Migrated bundler from Webpack to Vite and visual regression testing from Percy to Chromatic

### Codility Ltd. — *Task Creator*

AUGUST 2020 - MAY 2022

I created over 20 recruitment tasks in React, TypeScript, CSS, HTML, and more

### Blue Owl Sp. z o.o. — *Web Developer*

JULY 2018 - NOVEMBER 2020

I mainly created custom WordPress themes.

## EDUCATION

### Technical School of Communication, Poznań — *IT Technician*

SEPTEMBER 2017 - MAY 2021

## PROFESSIONAL PROJECTS

### Blue Owl - Homepage — *React, Gatsby, WordPress*

I was the only FE building it, and it hasn't changed almost at all since I left.

### Chili Piper - Booking App — *TypeScript, React, Vite*

Booking App lets you book a meeting with someone. Go ahead and book a meeting with me if you're interested in working with me

## PERSONAL PROJECTS

### Fiszki — *TypeScript, Tailwind, Solid, SolidStart, PostgreSQL*

Flashcards app - focused on the calendar; the better it goes with a flashcard, the less often it will be shown.
